DIVISION 01 NON-ALCOHOLIC BEVERAGES AND FOOD

Main changes proposed

Division was deeply revised with the collaboration of the FAO. Previous classes were upgraded to groups in order to provide as much as possible detail on the type of food, the detailed groups of products and the level of processing. For each group of aliments information is proposed to be collected first for raw aliments and then for the processed ones.

As food ready to eat is more and more consumed a specific class is dedicated to it. Non-alcoholic beverages were moved to the first group to allow Group 01.9 to be a residual group.

DIVISION 03 CLOTHING AND FOOTWEAR

Main changes proposed

- The class of garments is proposed to be further breakdown on:
 - Men,
 - Women,
 - Boys (2 to under 13 years),
 - Girls (2 to under 13 years),
 - Infants (0 to under 2 years)
- The limit of 2 years was considered to be more appropriated for baby's cloths.
- Unisex clothing should be classified with Women's garments
- Crash helmets for motorcycles and bicycles were moved from Other articles of clothing and clothing accessories to Division 07 transport
- Class Other articles of clothing and clothing accessories is proposed to be further breakdown on:
 - Other articles of clothing
 - Clothing accessories
- Class Cleaning, repair and hire of clothing is proposed to be further breakdown on:
 - Cleaning of clothing
 - Repair and hire of clothing
- Footwear: It was considered keeping the same split as garments for consistency. But this isn't consistent with CPC & HS. Finally it was decided to split Footwear as 1) Men, 2) Women, 3) Infants and Children (below the age of 13) to align with CPC and HS.
- When COICOP was first developed the word “leggings” had a different meaning to now. Formally, “leggings” were worn to protect trousers. While this type of legging is still available, the term “legging” is now more commonly recognised as tights that cover the legs. Therefore, the word “legging” will be removed from the examples to avoid misclassification.
- As it is mentioned for garments that it includes garments either ready-to-wear or made-to-measure, this is now also mentioned for footwear
- Cleaning of footwear is now mentioned in the tile of the class and sub-class previously called Repair and hire of footwear.

Maintenance and repair of dwellings are distinguished by two features: first, they are activities that have to be undertaken regularly in order to maintain the dwelling in good working order; second, they do not change the dwelling's performance, capacity or expected service life.

There are two types of maintenance and repair of dwellings: those which are minor, such as interior decoration and repairs to fittings, and which are commonly carried out by both tenants and owners; and those which are major, such as replastering walls or repairing roofs, and which are carried out by owners only.

Only expenditures which tenants and owner-occupiers incur on materials and services for minor maintenance and repair are part of individual consumption expenditure of households.

As such preventive services involves specific interventions aimed at avoiding diseases (e.g. vaccination); detecting diseases and then therapy as early as possible, e.g. via screening. Examples of screening include screening for diseases such as TB, diabetes and breast cancer. - Although in general new and second hand articles should be considered in the same class, it was considered useful to distinguish at the level of sub-class new cars and second hand cars due to the importance of the transaction and the difference of prices. Therefore 07.1.1 Motor cars is proposed to be further divided in:
 - 07.1.1.1 New motor cars
 - 07.1.1.2 Second-hand motor carsVehicles are considered second-hand when they are older than one year at the moment of purchase.
- The list of examples for 07.1.3 Bicycles was enriched with ebikes. To distinguish ebikes from motor bikes it was clarified that the second should have a combustion engine.
- Class 07.2.1 previously called 07.2.1 Spare parts and accessories for personal transport equipment was renamed Parts and accessories for personal transport equipment because the word "spare" was considered misleading in this context.
- Crash helmets for motorcycles and bicycles were moved from 03.1.3 Other articles of clothing and clothing accessories to class 07.2.1
- 07.2.1 Parts and accessories for personal transport equipment is proposed to be further divided in:
 - 07.2.1.1 Tyres
 - 07.2.1.2 Spare parts for personal transport equipment
 - 07.2.1.3 Accessories for personal transport equipment
- 07.2.2 Fuels and lubricants for personal transport equipment is proposed to be further divided in:
